HARDY DAFFODILS

There are many misunderstandings as to the definition of a "Daffodil" or a "Narcissus". The two names, however, refer to the same race of plants although the names may apply to different groups in various parts of the country. Regardless of which name you prefer, they are the first of the large flowering spring bulbs. They are easily cared for and will grow and bloom year after year unmolested.

AEROLITE. A golden yellow Trumpet Daffodil that is far superior to most of the older varieties and one of the longest lasting Daffodils we know. 3 for 45c; 12 for \$1.60; 100 for \$11.20, postpaid.

DICK WELLBAND. One of the finest of its type, a strong grower and very free flowering. The perianth is pure white with a cup of flaming orange (see color photo). Lasts well in the garden or when cut. 3 for 45c; 12 for \$1.60; 100 for \$11.20, postpaid.

FRANCISCA DRAKE. The pure white petals are 1½ inches wide, tinted golden yellow at the base. The cup opens yellow and changes to orange with age. 3 for 40c; 12 for \$1.40; 100 for \$9.80, postpaid.

GOLDEN HARVEST. A golden "trumpet" variety of enormous size and considered by most growers to be the largest and finest of all Daffodils. (See color photo.) It is early flowering and one you will be proud to own. 3 for 50c; 12 for \$1.80; 100 for \$12.60, postpaid.

INSURPASSABLE. This new variety comes to us from Holland for the first time. The color is a bright golden yellow and while we have not seen it in bloom, our Dutch growers say that it is even larger than Golden Harvest. 3 for 75c; 12 for \$2.80; 100 for \$19.60, postpaid.

KING ALFRED. Large, golden yellow trumpet with frilled edges. It has been the standard Daffodil for both the garden and the florist for many years. 3 for 35c; 12 for \$1.20; 100 for \$8.40, postpaid.

MRS. R. O. BACKHOUSE. (Pink Daffodil.)

Broad, ivory-white perianth and apricot-pink trumpet, changing to shell-pink at the edge. (See color photo.) Only a few years ago this variety sold for \$10.00 a bulb and this is the first time we have known it to be offered for less than one dollar. We have a large stock and can offer them at 60c each; 3 for \$1.50; 12 for \$5.40; 100 for \$40.00, postpaid.

SILVER STAR. An outstanding Daffodil with silvery-white perianth and clear yellow trumpet, making a very striking combination. 3 for 50c; 12 for \$1.80; 100 for \$12.60, postpaid.

KEEP MOLES AWAY FROM BULB BEDS

Many gardeners are unable to raise Tulips because of trouble with moles. While these pests delight in working through a Tulip bed, they never bother the Daffodils. The results of our experiments with bulb beds has convinced us that the best way to get rid of the moles is to plant Narcissus or Daffodils all through the Tulip bed. They bloom early and are gone before the Tulips are ready.

Golden Harvest

Ranunculus

Anemone

ANEMONE

One of the prettiest spring-flowering bulbs, becoming more popular each year. The colors range from light blue to brilliant scarlet with all the intermediate colors and white. The flowers are 3 to 5 inches across, borne on long stems, making them fine for cutting. They are fine for growing in the house, and are quite hardy outdoors if covered well during the winter. **Mixture of colors only.** (See picture.) 12 for 85c; 100 for \$5.95, postpaid.

RANUNCULUS

(Large-Flowered Hybrids)

Each year Ranunculus becomes more popular as a cut flower. Our Large-Flowered Hybrids are by far the largest and finest strain of Ranunculus we have ever seen. They produce full double flowers with a blending of semi-double and single blooms. They measure 2 inches and more across, and range in color through all the shades of red, rose, salmon, orange, yellow, etc. Recommended for partial shade. **Blooming size bulbs in mixture of colors only,** 12 for 85c; 100 for \$5.95, postpaid.

COOPERIA or RAIN LILY

Mrs. Eva Lambert of Moline, Illinois, writes: "My Rain Lily blooms every time it rains."

The Rain Lily receives its name because in its native state it blooms through the summer and fall after nearly every rain. The flowers are of delightful fragrance, 2 to 3 inches across, waxy white with a tinge of pink outside, borne on 8-inch stems. They flower several times each year. Perfectly hardy for outdoor planting and may also be used as a pot plant. **Blooming size bulbs, 3 for 40c; 12 for \$1.35.**

A Stunning Novelty!

Bunch-Flowered Tulip
ROSE MIST

ROSE MIST. This variety is unusual both in its color and in its blooming habit. The buds are creamy white with just a tinge of pink at the edge, but as it opens, the pink coloring spreads to the entire petal just as though sprayed with a fine mist. As the flower ages, it becomes almost a solid pink. The name "bunch flowered" comes from the fact that this variety produces from 2 to 4 flowers on a single stem. This new variety comes from Holland, the stock is limited and we have practically all that is in existence, so order early. 3 for 75c; 12 for \$2.80; 100 for \$19.60, postpaid.

Good News! Dutch Bulbs Are Back!

After five long years of war in Europe, the Dutch bulbs that have been missing from American gardens will be available again next fall. In presenting this folder we have selected the finest varieties of both American and Dutch grown bulbs it is possible to produce. All are of blooming size and guaranteed to be true to name.

Our stocks in this country, as well as those of our associates in Holland, are under the constant supervision of bulb experts. We do not depend on buying surpluses and odd lots from unreliable sources so we know that every bulb we send out is the highest quality possible for us to obtain.

BETTER BULBS AT LOWER PRICES

Bulb catalogs are usually mailed in late summer or early fall and in order to adequately take care of their customers, many dealers buy more bulbs than they need, which remain unsold at the close of the season. Frequently these bulbs spoil in storage and are later destroyed. They are not a loss to the dealer, however, as he has made allowance for it in his prices. In other words, you pay for bulbs that are actually destroyed.

We accept orders from this folder at any time before July 20th which is before the bulbs leave Holland. We import after we receive your orders and get enough—no extras. This plan eliminates all surplus bulbs so you pay only for what you actually receive, and at lower prices.

WE PAY THE SHIPPING CHARGES

We pay the shipping charges on all orders but if you want your order sent C.O.D. there will be the following additional charges made by the Post Office for collection. If you want to save these extra charges, you may send your remittance with your order.
